

## **FAQ - coronavirus version May 24 (UPDATE 47 – updates until May 24, 17h)**

### **Coronavirus: frequently asked questions about the measures**

*The city of Antwerp is taking measures to impede the coronavirus from spreading. Here you will find the answer to all frequently asked questions on the matter. These questions are very frequently updated.*

To stop the spreading of the coronavirus and to protect yourself and your family, everyone should follow these **basic rules**:

- Stay at home as much as possible, especially if you are ill (and in that case call a doctor). Essential movements are allowed.
- Wash your hands often.
- Use a new paper tissue each time and throw it away in a closed trash can. If you do not have one at hand, cough or sneeze in the inside of your elbow.
- Have as little contact with others as possible.
- Do not give hands, kisses or hugs.
- Pay special attention to those who are more sensitive to the virus:
  - people over 65 years old
  - people with diabetes or with heart, lung or kidney problems
  - people who are more prone to infections.
- Keep at least 1.5 meters distance

**The measures listed below are valid until June 7.**

The reduction of these strict containment measures will enter a new phase starting May 18. This will take place in different stages, subject of course to a successful reduction of the virus. Further reductions may be possible as of:

- June 8

For the topics to which this applies, you can find information about these phases of measure reduction below.

Traveling and mobility

**Q: Can I still leave my house?**

A: Everyone should stay at home as much as possible and avoid contact with people other than those within the family as much as possible.

**Exceptions are:**

- Trips for work (when working from home is not possible) or necessary trips (food shops, medical care, childcare, pharmacists, mail office, bank, refueling, providing informal care or providing assistance to vulnerable people) are permitted;
  
- Practicing physical activity (without physical contact with others)
  - individually
  - together with the family members who live under the same roof as you
  - together with maximum two and the same friends for the entire period, all the while respecting a distance of 1.5 meters between each person (**social distancing**)
  - after the activity, one must immediately return home
  
- Limited trips by car for leisure and shopping purposes (see below under the "shopping" section for more details) are allowed, especially for families with 5-year-old children or up to 5 years old, people with reduced mobility (including the elderly and pregnant women), assistants of people with a physical or mental disability.
  
- Trips to the second residence (see below)
  
- Each family can invite 4 people over (always the same people) under certain conditions:
  - This always applies to the same four people, which may or may not be part of the same household. Those people form a **social bubble**.
  - These four people are chosen as a household and not as individuals. For example, if the entire household chooses to see the 4 grandparents, they cannot invite their friends over.
  - When a person from a household is invited to another person's home, his / her entire household commits, even if this person goes to the appointment alone. For example, it is not possible to meet with the parents one day and with four other people the next day.
  - The necessary physical distance (1.5 meters) must always be respected. Preferably, the visit takes place outside (for example on a balcony or in the garden).
  - The visit cannot take place if one of the people is ill.
  - As part of the measure of limited social contacts, it is permitted to make a trip inside Belgium. This should not be a pretext for a (touristic) day trip.

**o It is everyone's responsibility to apply the measure of limited social contacts correctly.**

All meetings of more than 2 people are prohibited, unless stated otherwise.

AS OF JUNE 8, after federal consultation, there is a chance that trips in Belgium might be allowed.

**Q: Can I still visit municipal parks and cemeteries?**

A: Yes, you can still visit these places. It is important to get a breath of fresh air regularly. However, you must strictly adhere to the above-mentioned conditions regarding traveling outside the house and social distancing. Therefore keep enough distance from each other and do not under any circumstances form groups.

For parks:

- playgrounds and catering services are closed. Respect any barriers around the playground items and other equipment.
- Limit your travel in distance and only visit the nearest parks in your area.
- To fully respect social distancing, it is best to spread out visits to the park throughout the day and choose a quiet moment.

**Q: Can I still use Velo and other shared bike, scooter and car systems?**

A: Yes, they are considered a means of transport and are therefore not prohibited. They can only be used in the context of trips to and from work or necessary trips.

**Q: Is the Pedestrian Tunnel open?**

A: Yes, the Pedestrian Tunnel will remain open. The Kennedy tunnel (bicycle tunnel) will also remain open. Only make necessary trips and respect the distance rules.

**Q: Can I still use public transport?**

A: Yes, you can continue to use public transport, but only for necessary trips. Try to work from home as much as possible. If you use public transport, you must keep a sufficient distance from other travelers according to the applicable social distancing rules. De Lijn requests you to get in at the back and to stop using cash to pay.

Timetables may suffer changes. Therefore you should always check the websites of [De Lijn](#) and [NMBS](#) before you leave.

The use of a face mask or an alternative protective equipment such as a scarf or a bandana covering the mouth and nose is mandatory on all public transport for users aged 12 years and older, as soon as you reach the station, platform or bus stop. You can find more information about this under the face masks section on this page.

The gradual phasing out will also inevitably lead to an increase in the use of public transport. To avoid crowds, it is recommended to:

- if possible, travel with your own means (on foot, scooter, bicycle, car, etc.), in order to give priority to those who need public transport the most;
- avoid rush hour.

**Q: Is the ferry still sailing between Right and Left Bank?**

A: The Sint-Anna ferry, which operates between the Left Bank and the Steenpont, is available again. More information about the security measures on [the website](#).

The use of a face mask or an alternative protective equipment such as a scarf or a bandana covering the mouth and nose is mandatory on all public transport for users aged 12 years and older, as soon as you reach the station, platform or bus stop. You can find more information about this under the face masks section on this page.

**Q: Is the Waterbus still sailing?**

A: The [Waterbus](#) is sailing according to an updated schedule, whereby the stops in Lillo and Liefkenshoek are temporarily suspended. The Waterbus will only continue to sail for those on the way to and from work. You can also take the Waterbus for essential trips (doctor, pharmacist, bank etc.). Tourists and people who want to go on a leisure trip are no longer allowed to board. Read more on the [Waterbus website](#).

The use of a face mask or an alternative protective method, such as a scarf or bandana covering the mouth and nose, will become *mandatory* for users aged 12 years and older on all public transport including DeWaterbus. This applies as soon as you enter the pontoon. More information can be found under the section of face masks on this page.

The gradual phasing out will also inevitably lead to an increase in the use of public transport. To avoid crowds, it is recommended to:

- if possible, use your own means of transport (on foot, scooter, bicycle, car, etc.), in order to give priority to those who need public transport the most;
- avoid rush hour.

**Q: Are there still check-ups for parking on the street?**

A: As of Monday May 11, check-ups are made again for paid parking and disc parking in the public space. The city has made this decision in the light of shops reopening. This will bring more visitors to the city who will park on the street.

**Q: Is the low emission zone still in effect?**

A: The low-emission zone (LEZ) has been reinforced again starting Monday May 11. Drivers who enter the LEZ with an unauthorized vehicle will receive a fine. The city has decided to reopen the LEZ at the same time as stores reopen. This will bring more visitors to the city who will thus enter the LEZ.

**Q: Can I apply for a parking permit for residents at a city counter?**

A: No, for now you can only apply for a parking permit for residents online via the [e-counter](#).

**Q: Can I cancel my parking ban for free?**

A: Yes, you can cancel your parking ban for free if the parking ban signs have not yet been placed. To do this, you can contact the Temporary Traffic Signaling Service via [tijdelijke.verkeerssignalisatie@antwerpen.be](mailto:tijdelijke.verkeerssignalisatie@antwerpen.be) or 03 22 11 333.

**Q: Can I take a taxi?**

A: Taxis are allowed to transport clients. However, a minimum distance of 1.5 meters must be maintained between each person. The number of people that can be transported therefore varies depending on the type of vehicle. It is recommended to wear a face mask. Families are allowed in one car, as the distance regulation does not apply in this case.

**Q: Can I still request taxi coupons?**

A: People over 65 who are less mobile (temporarily or not) and people with disabilities who meet the [conditions on this website](#) can still apply for taxi coupons to pay for taxi rides at a heavily reduced price. This is possible via [this online form](#), by telephone at 03 22 11 333 or by sending an email to [SD\\_welzijn\\_taxicheques@antwerpen.be](mailto:SD_welzijn_taxicheques@antwerpen.be). More information can be found on [www.antwerpen.be](http://www.antwerpen.be).

Please also check [this overview](#) of the social services.

**Q: Can I carpool?**

A: Yes, provided that a minimum distance of 1.5 meters is maintained between each person. The number of people that can be transported therefore varies depending on the type of vehicle. It is recommended to wear a face mask. This measure does not apply to families. It is recommended to regularly air and clean the car. As a rule, trips outside the house should be avoided as much as possible.

**Q: Can I go to my house in the country, for example in the Ardennes or at the seaside?**

A: Yes, this is allowed for owners or tenants that have had a second residence for longer than one year. However, the social bubble may not be broken.

**Q: Can I still move to my new place?**

A: Yes. Moving is allowed, provided that the measures related to social distancing are observed. It is recommended to postpone any non-essential plans to move.

Face masks

**Q: Do I need to wear a face mask if I go out of the house?**

A: Covering the mouth and nose can be done with a face mask or an alternative protective method such as a scarf or a bandana. This is recommended in public places and shops, especially when you cannot keep enough distance from others, and is become mandatory on public transportation (train, tram, bus and DeWaterbus) for everyone over the age of 12. More information about this in the mobility and travel section.

A face mask is a good addition to the existing measures (but does not replace them):

1. Stay home if you are ill.
2. Wash your hands often.
3. Keep 1.5 meters away from other people.
4. Meet as little as possible with others, instead make phone calls, chat or email.

**Q: Where can I get face masks?**

A: The federal government has decided to distribute face masks. The best way to organize the distribution is currently being considered. Do you lack masks or have not been able to find any? Ask a family member or an acquaintance who can use a sewing machine (an approved pattern for this can be found at <https://maakjemonmasker.be>). If you want to buy one online, watch out for fake

webshops and phishing emails or text messages that link to them. More information can be found on [www.safeonweb.be](http://www.safeonweb.be).

The city of Antwerp will also acquire reusable textile face masks for all its inhabitants over the age of 12. For the distribution the city works in collaboration with all Antwerp pharmacies. Each family will receive an invitation to pick up the masks in a pharmacy. The first face masks will probably be delivered early June. You can read more information on [www.antwerpen.be](http://www.antwerpen.be).

**Q: How do I wear my textile face mask?**

A: Wearing a textile face mask helps to limit the spread of Covid-19, but only when you wear the mask correctly. You must be careful with putting it on, taking it off, wearing it, washing it and storing it. At the bottom of [this page](#) you will find all the information about wearing, washing and storing a face mask correctly.

**Helping others or in need of (medical) help?**

**Q: How do I reach my doctor during the weekend and on public holidays?**

A: Due to the corona epidemic, the GP outposts work behind closed doors. First call the medical triage line. More information can be found on [this web page](#).

**Q: I have a garage or driveway and want to help doctors and nurses find a parking space, how do I do that?**

A: Register with [Zorgparking](#). You will receive a sticker that indicates that health care providers (doctors, nurses and other health personnel) can park in front of your driveway or garage door between 8 am and midnight. That way they save time when they are on the road to help people. They will place a card with their phone number behind their windshield, so you can always call them if you have to take out your car.

**Q: Where can I find an overview of the social services currently provided by the city?**

A: An overview of the social services provided by the city during the corona crisis can be found at [www.antwerpen.be/socialecentra](http://www.antwerpen.be/socialecentra).

[antwerpenhelpt@antwerpen.be](mailto:antwerpenhelpt@antwerpen.be) or by telephone at 0800 670 10 (from 9 am to 5 pm). Employees will take a look at all questions and search for suitable volunteers. All requests are kept strictly confidential.

Please also check [this overview](#) of the social services.

**Q: I want to help others as a volunteer.**

A: For residents who want to help, the city will provide cards that they can put in their neighbors' mailboxes. Anyone who is interested can download the cards. Antwerp residents who also want to help people outside their immediate environment (family, neighbors, friends etc.) can register as volunteers at [www.antwerpen.be/antwerpenhelpt](http://www.antwerpen.be/antwerpenhelpt). You can find the requests for help listed there. The website and vacancies on [www.antwerpenhelpt.be](http://www.antwerpenhelpt.be) are available in Dutch, French, English, Spanish, Polish, Romanian and Arabic. Click on the top right to select a language.

Volunteers must comply with the applicable rules on social distancing when helping other citizens. Therefore always keep a distance of 1.5 meters.

**Q: Can home nurses continue to work?**

A: Yes, home care can still be offered.

**Q: What about voluntary transport of people with disabilities and people in need of help?**

A: This is still allowed, but preferably always among the same drivers / people and subject to hygiene and social distancing measures. A minimum distance of 1.5 meters must be maintained between each person. The number of people that can be transported therefore varies depending on the type of vehicle.

**Q: Can I still go to the social centers for an urgent conversation if I need financial help or with anything else?**

### **Q: My child cannot go back to school and cannot stay at home either because I have to work. Where can he/she go?**

A: Parents working from home should take care of their children as much as possible. The schools still provide childcare for children whose families need childcare. This service is organized in every district and in accordance with all safety measures. Contact your school to request childcare.
